EXAMINER'S AMENDMENT

- An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter Olexy on 09 July 2004.

The application has been amended as follows:

CANCEL CLAIMS 5-18

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

- Claims 1-4 and 19-20 are allowed over the arguments by the applicants and the prior art of record that neither teaches nor fairly suggestive of the limitations of the instant claims by the applicants. The newly added claims were examined fully examined for patentability and found to be patentable.

Closest prior art by Iwata et al (JP 11-071115) does not disclose or suggestive of the instant claim limitation of "half value width of the (400) plane of powder X-ray diffraction by Cu-K α ," and any such an inherency could not be established with absolute certainty. Further, disclosure by Maneev et al (US 6,267,943) do not meet the limitation of "average diameter of crystal grains" (Col-7, Lines: 5-12), and any inherent relation between <400> plane half width value of the Li-Mn-Complex Spinel to particle size and surface area could not be established with absolute certainty.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
